Bramwell's**DRIVING AN AUTO BY A STANDING CAR CAUSES A FIRE**

"The person who operates an automobile assumes the responsibility that such a task imposes. The law requiring care and caution is a wise one and should be rigidly enforced. I will fine you ten dollars."

Judge George S. Barker made that statement to J. C. Biddolph, proprietor of the Superior Tailoring shop, 2470 Grant avenue, this morning. Biddolph was arrested last night by Traffic Officer William Dick for "driving past a street car which was unloading passengers." The incident happened on Washington avenue, between Twenty-third and Twenty-fourth. The machine was going at a speed of fifteen miles an hour.

Biddolph stated that he was watching an automobile which was backing away from the curb and did not see the street car. He stated that he probably passed the car but that he did not remember.

"That is one of the responsibilities you assume," said the court. "Too much care cannot be taken nor too much caution exercised. A moment's lapse of strict attention to pedestrians and other traffic, might result in serious accident. I am compelled to find you guilty and assess a punishment."

Officer Dick announced today that the period of probation for those who neglect to light tail lights was up last night. All persons operating cars tonight, or on future nights, will be arrested and arraigned in municipal court.
